The Equine Business and Facility Management major is designed for the student whose primary interest is in pursuing a career managing an equine facility, and/or being involved in other equine-related businesses, including equine insurance adjusters, bloodstock agents, editors and writers, administrators of racing and breeding organizations, racetrack and breeding farm administrators, and those involved in the marketing of horses or horse-related products. This interdisciplinary major draws course material from the following departments: Equine Science; Business, Accounting and Economics; Communication; English; and Mathematical Sciences (Math and Computer Science courses). Students earn a Bachelor of Arts degree.

Required courses:

**EQUINE**
- EQSC 1100 Horse mastership 4
- Lab 1110 Horse mastership lab 1

ENST 4101  Advanced Environmental Studies  4
JAMC 1500  Media writing  4
MGMT 3555  Non-Profit Management  4
PSYCH 1050  General Psychology  4

Other departments which may be of interest for Electives:  Art, Biology, Philosophy,

Grades:  A minimum grade of "C-" must be achieved in all the required courses for the Equine Business and Facility Management major.  If a student earns a grade that is less than "C-" in any of these courses, that course will need to be repeated.  Should that course be a pre-requisite for subsequent coursework, the student must earn a satisfactory grade (minimum = C-) in the prerequisite course before continuing with subsequent coursework.

Modern Language:  if you have a significant amount of previous language education, you may take a placement exam in a modern language.  Otherwise plan on taking 2 semesters of a modern language.

Mathematics:  A strong high school background in higher mathematics skills is strongly encouraged.  If you are seeking the B.A. degree in any Business major from Otterbein University, you must take MATH 1240, Statistics.  A placement test should be taken Spring of your high school senior year.  If you only qualify for / test into ASC 0900, plan to take ASC 0900 or its equivalent over the summer.  Consider the summer tutorial option normally offered to incoming students.  You could complete the online tutorial program for Intermediate Algebra through ALEKS (Assessment and LEarning in Knowledge Spaces).  This is a completely self-paced assessment and learning system (intelligent tutoring system) for individualized instruction over the Web.  It is a self-paced tutorial - not an online course - so there is no actual instructor.  You learn from the system itself.  Register online with ALEKS ($32 fee on a major credit card) for a 6-week Otterbein "class" in order for us to have access to your assessments.  For your convenience, there are two sessions from which to choose.  ALEKS www.aleks.com.

Early Session  May 31 - July 11  use course code 364JR-LL3HY OR
Late Session  July 11 - August 21  use course code R3YGM-VECLK

Physical Education:  One Health and Physical Education Lifestyle course is required for all students.

Internships:  An equine science faculty member will assist you with setting up your internships.  This must be arranged the semester prior to the internship.

Practicum:  EQSC 1410 is offered almost every semester.  Students are required to sign up for two (2) courses.

FRESHMAN  Fall  EQSC 1100  Horsemastership  4
           EQSC 1110  Applied Horsemastership  1
