“The CCPD is one of the most valuable resources at Otterbein because it gives students the tools and encouragement to be successful inside and outside of the classroom. Through internship postings, alumni events, & numerous networking opportunities, students are able to explore opportunities and find careers that are of interest to them. The staff makes a point to push you to explore as many opportunities so that you can position yourself for a great post-Otterbein future. ”

Tristan Freshly '18

Finance

“The first thing that comes to my mind when I think of the CCPD is instant availability; they put students first. The CCPD provides a comprehensive service to career planning, professional development support services and ways to supplement the student experiences via internships, employment opportunities, interview practice, etc. They do it all with a passion that is real as they genuinely care about each and every student that reaches out for their assistance and direction.”

Dr. Joan Rocks,

Chair, Health & Sport Sciences
